2. Activity - categorization and segregation of garbage (5 m.)

1. List 5 biodegradable wastes and 5 non-biodegradable wastes present in your school and home.
2. Segregate the wastes that are produced.
3. Categorize the waste based on which bin it should be thrown.
4. Also categorize the wastes as items that can be made into compost or material that needs to be recycled.
5. Make a table (sample below) based on the observation.

Wastes	Biodegradable / Non-biodegradable	Green bin / Blue bin	Decomposable / Recycled
Paper container	Biodegradable	Blue bin	Recycled

Document your answer with the photograph and upload for teacher evaluation.
